Current Contract Scope Overview

The ABSS contract provides for a myriad of acquisition and business disciplines in support of the Office of Procurement, the Office of the Chief Financial Officer and other MSFC offices, directorates, programs and projects at George C. Marshall Space Flight Center, Michoud Assembly Facility, NEACC, and NSSTC.

The ABSS contract provides professional and technical services in support of (a) business, resources, program control, schedules, and accounting operations and (b) acquisition planning through solicitation, award, training, performance, final payment, and closeout for the full range of contractual instruments used by the Government.

Limitation of Future Contracting

ABSS Contract Clause:

Performance of this contract involves (1) participation in all phases of the acquisition process (i.e., from acquisition planning through closeout of the contract) at MSFC, (2) access to and use of highly sensitive information belonging to both the Government and third parties and (3) analysis and document preparation in support of the Government's decision-making processes. Thus, to avoid any conflict of interest related to unequal access to information, biased ground rules, and/or impaired objectivity with respect to future contracting opportunities, the Contractor or any subcontractor (including any affiliate as defined in FAR 2.101) under this contract shall not perform nor assist with the performance of any other contract/agreement under the cognizance of MSFC during the performance of this contract.
