

The background of the slide is a deep space scene. It features a dark blue and black sky filled with numerous bright stars of varying colors, including white, yellow, and blue. A prominent, glowing blue nebula or galaxy structure is visible in the upper left and center. On the right side, a large, reddish-brown planet, likely Mars, is partially visible, showing its textured surface and some darker regions. The overall lighting is soft, highlighting the celestial bodies against the dark void of space.
