Company Overview

All Points is a Rapidly Growing SDVOSB providing Mission Critical Services to a Diverse set of Federal Government, Civilian and DoD Agencies.

Business Category:
SDVOSB, VOSB, SB

Founded: 1997

Security Posture: TS Facilities Clearance

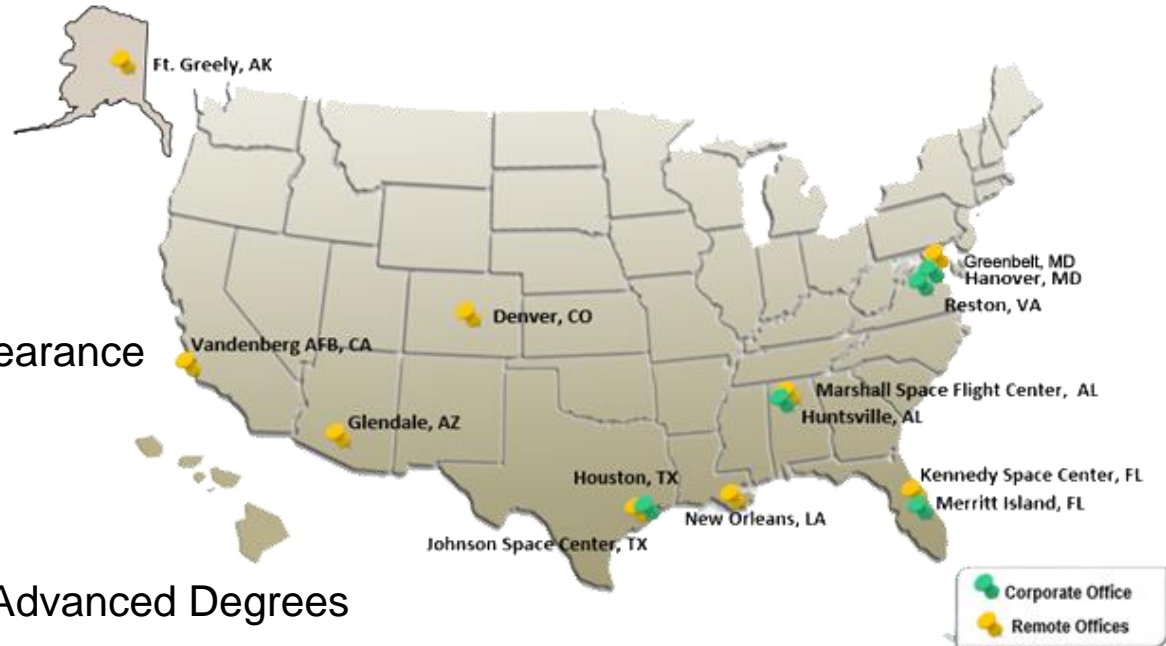

Headquarters: Merritt Island, FL

Company Structure: LLC

Workforce: 63% Degrees & 37% Advanced Degrees

Certifications: AS9100C, ISO-9001:2008, CMMI, ITIL, PMI, & Lean Six Sigma

Locations: 5 Corporate Offices & 9+ Customer Sites

ENGINEERING AND TECHNICAL SERVICES

All Points provides engineering capabilities and services in areas such as Systems Integration, Design, Software Development and Operation and Maintenance for a wide range of Aerospace, Aviation and Intelligence customers.

LEARN MORE

INFORMATION TECHNOLOGY

All Points provides IT expertise and services to meet the demands of today's evolving environments and security challenges. Our services cover a broad spectrum, including network infrastructure, hardware, software, systems operations and integrated solutions.

LEARN MORE

INTEGRATED LOGISTICS

All Points provides full-service contract logistics capabilities specializing in the cost-effective Life-cycle analysis, design and management of product transportation, storage, distribution and integrated logistics services.

LEARN MORE

PROGRAM MANAGEMENT

All Points uses Program and Project Management Tools and Processes to provide our customers with demonstrated performance in the oversight and management of complex government contacts including areas such as EVM.

LEARN MORE

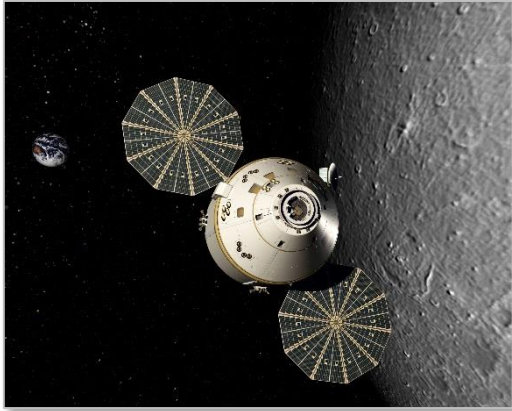

GOVERNMENT SOLUTIONS (VAR)

As a premier Value Added Reseller (VAR), All Points provides a wide range of hardware and software integration and solution options enhanced by our outstanding relationships with top industry suppliers and OEMs.

All Points Delivers

Design, development & testing of flight and ground software for NASA's Orion Spacecraft and Boeing's CST-100 trainer

Complex flight and ground system engineering for NASA's Space Launch System

Program management and development for NASA's next generation space launch ground system

IT and Communication products and solutions across the U.S. Department of Veterans Affairs and the Department Homeland Security

Critical system engineering, logistics sensor technology and integration to MDA's Space Missile Defense System, NSA and DIA

Company Recognition

Awards

- NASA Subcontractor of the Year
- NASA Kennedy Space Center's Subcontractor of the Year
- Motorola Supplier of the Year
- Boeing Supplier of the Year
- Top 100 DHS Supplier's GSN
- NASA Kennedy Space Center's Small Business of the Year

| <p>VA Commodity Enterprise Contract (CEC)</p>  <p>Agency – VA Ceiling – Software, IT Position – Prime</p> <p>Provide IT solutions, hardware and incidental services, technological advances and new business practices that deliver efficiencies, increase productivity and/or reduce costs.</p> | <p>Ground-based Midcourse Defense (GMD)</p>  <p>Agency – MDA Scope – IT, Sys. Int. Position – Sub (Boeing)</p> <p>Engineering services, modeling and simulation, logistics operations for shops and laboratories including shipping, receiving, stock and physical inventories, logistics engineering, facilities operations & maintenance.</p> | <p>Objective Simulation Framework (OSF)</p>  <p>Agency – MDA Scope – Engineering Position – Sub (TBE)</p> <p>Security/Information Assurance Management, Systems Integration and Test, Common Truth System Services, Software and Hardware Maintenance, Systems Engineering, and CM/Data Management.</p> | <p>NSA Ambulate</p>  <p>Agency – NSA Scope – S/W, Eng, Integ Position – Sub (Boeing)</p> <p>Facilities Management, Logistics Systems, Help Desk Support, Document Management, Maintenance procedures, Preventative Maintenance Program (PMP) schedule/records.</p> | <p>Bureau of Medicine and Surgery (BUMED)</p>  <p>Agency – US Navy Scope – IT, Sys. Int. Position – Sub (Tessada)</p> <p>Provides medical logistics, medical information management, medical information technology, facility management, and user community support.</p> |
| <p>Launch Space Lift Range Systems (SLRS)</p>  <p>Agency – USAF Scope – IT Security Position – Sub (ITT)</p> <p>Information Assurance Systems Engineering support providing DIACAP certification & accreditation and other information assurance (IA) support to the Launch and Test Range System (LTRS) at Vandenberg AFB, California.</p> | <p>FirstSource I</p>  <p>Agency – DHS Ceiling – IT, Sys. Int. Position – Prime</p> <p>FirstSource provides information technology (IT) equipment, supplies and services to meet the needs of the Department of Homeland Security throughout its 22 operating departments.</p> | <p>Emergency Information Management System (EMIMS)</p>  <p>Agency – DHS/FEMA Scope – IT, Sys. Int. Position – Prime (TO)</p> <p>Manages FEMA's enterprise-based, comprehensive, web-based emergency management information management software solution for the National Response Coordination Center (NRCC).</p> | <p>TSA Video Systems (Freedom Center)</p>  <p>Agency – DHS/TSA Scope – IT, Sys. Int. Position – Prime (TO)</p> <p>Provides a variety of IT based video communications networks based on Activa software. APL performs hardware and software integration and operations including internal cabling of TSA's Freedom Center at Mt. Weather.</p> | |
