

The background of the slide is a deep space scene. It features a dark blue and black sky filled with numerous bright stars of varying colors, including white, yellow, and blue. A prominent feature is a large, reddish-brown planet, likely Mars, which occupies the right side of the frame. The planet's surface is detailed with various shades of brown and orange, showing craters and geological features. In the upper center, a smaller, pale, hazy planet or moon is visible. The overall lighting is soft, with a slight glow around the planets, suggesting a distant light source.

NASA / MARSHALL PRIME CONTRACTORS SUPPLIER COUNCIL (MPCSC)

Steven Miley
Director, Office of Procurement

June 7, 2016

MSFC Procurement 2016 Focus Areas

- Acquire, Develop and Retain Procurement Talent
 - Successfully execute FY16 recruitment and on-boarding by March 2016.
 - Assure mentoring and integration of new GS-11 contract specialists.
 - Complete staffing of Source Selection Office (PS60).
 - Formalize 1102 development pyramid and implement rotations.
- Support MSFC Programs/Projects
 - Deliver on procurement schedule commitments.
 - Negotiate to achieve timely and fair contract agreements.
 - Provide excellent contract administration.

MSFC Procurement 2016 Focus Areas (Cont.)

- Improve MSFC Procurement Processes
 - Improve collaborative approaches with involved offices, e.g. requiring organizations, legal, CFO.
 - Support Agency Procurement BSA implementation.
 - Optimize Volume, Time and Leadership.
 - Continue implementing procurement Kaizen recommendations.
 - Complete source selection office infrastructure.

Source Selection Streamlining Initiatives

- Reducing/Eliminating “Key Personnel” bid requirements.
- Streamlined selection methods such as PPTO.
- Simplified/reduced selection criteria.
- “Projectizing” PDT and SEB milestones to drive joint ownership of schedules.
 - Assignment of reviews at the right level

A cosmic background featuring a dark blue space filled with numerous stars and several prominent blue and purple nebulae. In the upper center, a small, dark, spherical planet is visible. On the right side, a large, reddish-brown planet with visible surface textures and a bright blue atmospheric glow at the horizon dominates the foreground. The overall scene is a rich, multi-colored representation of outer space.

NASA Procurement

Business Services Assessment
(BSA)

BSA Process

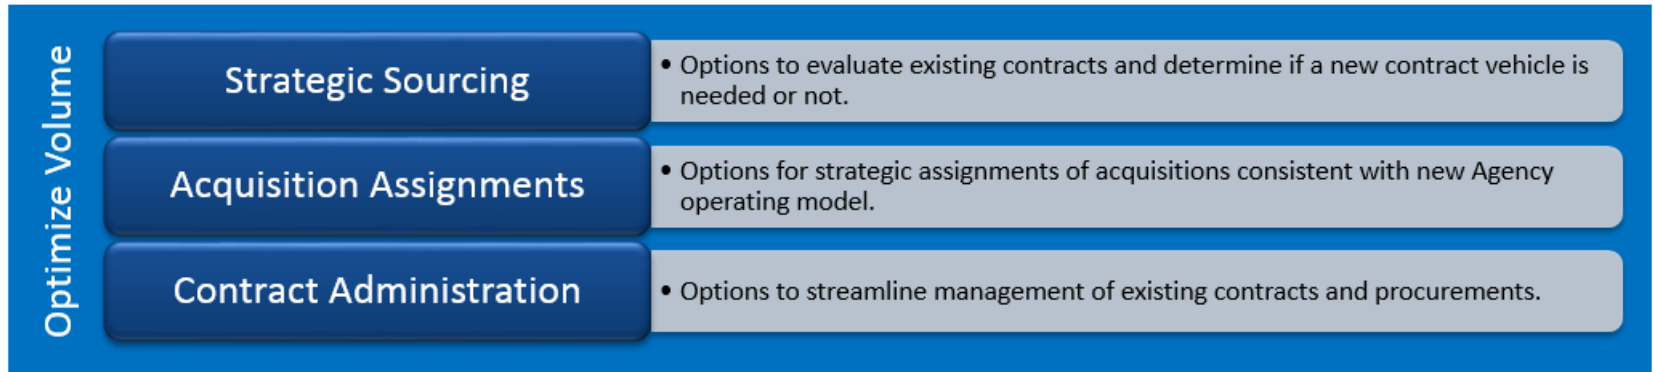

- NASA established the Business Services Assessment (BSA) in FY15.
- There are 5 Procurement deep dive areas.
- BSA Procurement Core Team is composed of procurement and requiring organization experts.
- Data call and interviews were conducted with NASA Centers and Mission Directorates.
- Core Team reported findings and observations to the Business Services Steering Committee (BSSC) and the Assistant Administrator for Procurement.
- BSSC presented recommendations to the Mission Support Council (MSC).
- Implementation was approved on April 16, 2016.

BSA Process (Cont.)

Optimizing Volume

Optimizing Volume options reduce volume of activities, including the number of contracts, tasks, and activities, and the corresponding work being performed with these activities.

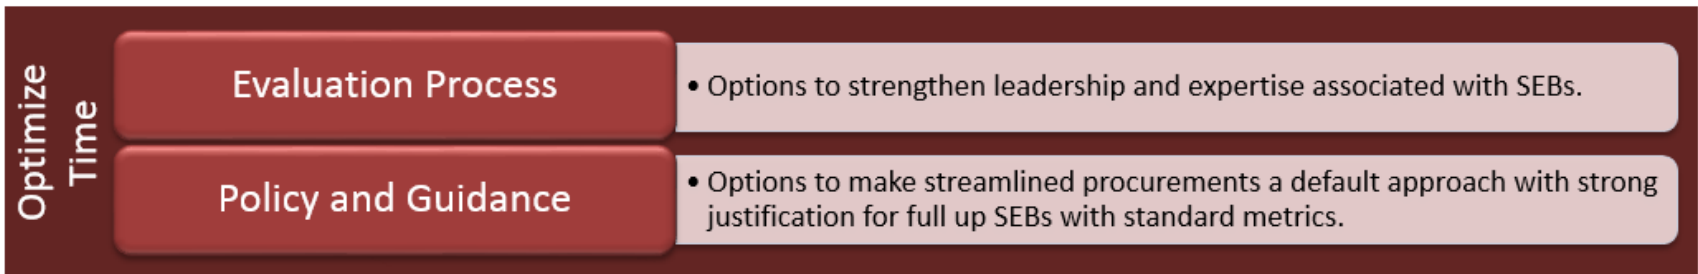

BSA Process (Cont.)

Optimizing Time

Optimizing Time options reduce the lead-times in the process, enable consistent policy and guidance to ensure more efficient practices for NASA.

BSA Process (Cont.)

Optimizing Leadership

Leadership options strengthen knowledge management, ensure effective project management systems, and enable strong leadership and accountability.
