# Enables the Agency's mission and execute contracts in support of programmatic, institutional, and operational needs

## OP Vision Statement: Acquisition Excellence in an Evolving Environment

### OP Enterprise

#### Headquarters OP

Provides stewardship of acquisition process to support successful accomplishment of mission objectives. Provide policy, oversight, optimization of procurement resources, and support Mission Directorate Acquisition Strategy Development to enable more efficient operations for NASA.

#### Information Technology (IT) Procurement Office

Developed as a part of NASA's transformation to enable the Agency to leverage best practices related to IT, create standardization, and maintain pace with the constant change amongst the IT industry.

#### NASA Office of JPL Management and Oversight

NOJMO ensures proper coordination of all the required operational functions associated with the management of the FFRDC, the JPL contract, and is the focal point for communication with upper management at the JPL and actively represents NASA in local outreach and educational events.

#### NASA Shared Services Center

Supports NASA's overall mission by providing core procurement services across the Agency; award /administration of grants and cooperative agreements; research & development contracts; complex, large dollar service contracts; and commercial item acquisitions.

### Research Centers

#### Ames Research Center

Specializes in research geared toward gaining new knowledge and creating new technologies that span the spectrum of NASA interests.

#### Armstrong Flight Research Center

As the lead Center for flight research, Armstrong continues to innovate in aeronautics and space technology. The newest, the fastest, the highest—all have made their debut in the vast, clear desert skies over Armstrong.

#### Glenn Research Center

Glenn develops and transfers critical technologies through research, technology development, and systems development for safe and reliable aeronautics, aerospace, and space applications.

#### Langley Research Center

Langley continues to forge new frontiers in aviation and space research for aerospace, atmospheric sciences, and technology commercialization to improve the way the world lives.

### Space and Space Flight Centers

#### Goddard Space Flight Center

Goddard's mission is to expand knowledge about Earth and its environment, the solar system, and the universe through observations from space.

#### Marshall Space Flight Center

Marshall is the world's leader in the access to space and the use of space for research and development to benefit humanity.

#### Kennedy Space Center

Kennedy is "America's Gateway to the Universe"—leading the world in preparing and launching missions around Earth and beyond.

#### Johnson Space Center

Leads NASA's efforts in human space exploration, from the early Gemini, Apollo, Skylab and space shuttle programs to today's International Space Station and Orion programs.

#### Stennis Space Center

Stennis is responsible for NASA's rocket propulsion testing and for partnering with industry to develop and implement remote-sensing technology.

# NASA ACQUISITION FORECAST

<http://www.hq.nasa.gov/office/procurement/forecast/>

## NASA Acquisition Forecast

It is NASA policy (see NASA FAR Supplement 1807.72) to prepare an annual forecast and a semiannual update of expected contract opportunities, or classes of contract opportunities, for each fiscal year. The forecast consolidates anticipated procurements (in excess of the simplified acquisition threshold) at each NASA Center with the aim of increasing industries' advance knowledge of NASA requirements and to enhance competition.

The procurements described in this forecast are expected to be solicited in this fiscal year and beyond, based on the best information available at the time of publication. All projected procurements are subject to revision or cancellation. Final decisions as to the extent of competition, small or disadvantaged business set-asides, estimated value, etc., will not be made until each procurement is initiated. The data is for planning purposes only; it does not represent a presolicitation synopsis or constitute an invitation for bid or request for proposal, nor is it a commitment by the Government to purchase the described supplies and services. You are urged to review [beta.sam.gov](https://beta.sam.gov) under Contract Opportunities for the actual notice of a pending contract action.

### Agency-Wide Acquisition Forecast

FY 2021 -- updated April 2021

The following Consolidated Agency-wide Acquisition Forecast is provided to allow users to search multiple NASA Centers for specific types of opportunities to match your organizational interests.

# NASA ACTIVE CONTRACT LISTINGS

## ACTIVE CONTRACT LISTINGS (ACLs)

→ [NASA Employees Click Here](#) → [Vendors Click Here](#)

Active Contract Lists (ACLs) record NASA recurring acquisitions. ACLs are grouped based on NAICS codes and are categorized as follows:

- Accounting Financial Business Services
- Administrative Services
- Environmental Services and Remediation
- Facilities Maintenance
- IT
- Multiple Award Construction
- Occupational Health
- Protective Services

## NASA ACQUISITION FORECAST

<https://www.hq.nasa.gov/office/procurement/forecast/>

The NASA Acquisition Forecast is a consolidated Agency-wide forecast provided to allow users to search multiple NASA Centers for procurement opportunities.

**Expiration Date (or "last date to order" for indefinite-delivery contracts)**

This allows for long-term tracking of recurring requirements, as well as for the long-term planning time normally required in pursuing the contracts.

### Sample Active Contract Listing

Center	NAICS	Contract Name	Contractor Name Contract #	Type of Competition	Potential Value	Ultimate Contract End Date
AFRC	561210	Facilities Operations and Maintenance Services	Helix Management Services, LLC NND13AD53C	8(a) Competitive	\$44.9 M	5/31/2021 Last Date to Order
