

The background of the slide is a deep space scene. It features a dark blue and black sky filled with numerous bright stars of varying colors, including blue, white, and yellow. A prominent blue nebula or star-forming region is visible on the left side. On the right side, a large, reddish-brown planet, likely Mars, is partially visible, showing its characteristic surface features and atmosphere. The overall lighting is soft, highlighting the celestial bodies against the dark void of space.
