

The background of the slide is a deep space scene. It features a dark blue and black sky filled with numerous bright stars of varying colors, including white, yellow, and blue. A prominent feature is a large, reddish-brown planet, likely Mars, which occupies the right side of the frame. The planet's surface is detailed with various shades of brown and orange, showing craters and geological features. The overall lighting is soft, with a subtle glow around the planet and the stars, creating a sense of depth and vastness.
