

The background of the image is a deep space scene. It features a dark blue and black sky filled with numerous bright, multi-colored stars. A prominent, reddish-brown planet, likely Mars, is visible on the right side, showing its characteristic surface features. In the upper center, a smaller, greyish planet or moon is partially visible. The overall lighting is soft, highlighting the textures of the planets and the brilliance of the stars.

The background of the slide is a deep space scene. In the upper center, the Moon is visible as a dark, cratered sphere. To the right, the curved horizon of the Earth is shown, with its brown and blue surface. The rest of the background is a dark blue void filled with numerous stars and a faint, glowing nebula or galaxy structure.
